

Calling my brother in Florida, he doesn't even answer his phone because of the hassle's of soliciting sales people. Please do not touch Wisconsin's no call list - this is extremely peaceful a dinner/evening time with the family not being harassed. For being the top 10 tax state in the nation - please leave us alone. This is a very nice feature the State of WI has provided. Besides with the deficit in the USPO every year make the salespeople solicit by mail mandatory!
